The water rate don't have to increase as to allow the customers to pay more. We are in a community where we have and one of the advantages is the water so low. As other counties are much higher. Even that sometime the water seem like it's not clear enough to drink only to water plants. I can still appeal the rate.

Please we don't want an increase

We are retired & on a fixed income. The rate of increase will cause a burden on the family. We request the parent cannot afford a raise.

You can find other ways to get the funds you need rather than taxing us.

Please look into the fact that most of us are SA. (State Agency) for insurance.
