BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Expedited Review of) Docket No.: _____
Growth Code Denial by the Numbering)
Pooling Administration for the Hastings) Filed: June 1, 2016
Rate Center)

PETITION FOR EXPEDITED REVIEW OF CODE DENIAL

Windstream Florida, LLC (“Windstream”) petitions the Public Service Commission of Florida (“Commission”) pursuant to 47 C.F.R. § 52.15(g)(4), the Federal Communications Commission’s (“FCC’s”) *Numbering Optimization First Report & Order*,¹ and Commission Order No. PSC-01-1873-PCO-TL, to review and overturn a recent decision by the Pooling Administrator (“PA”) to withhold certain numbering resources from Windstream needed by the company to continue to provide reliable and adequate service to customers. In support of its Petition Windstream states:

PARTIES

1. Windstream is an incumbent local exchange carrier (“ILEC”) authorized to provide telecommunications services in designated service territories in the State of Florida.
2. Neustar is the corporation authorized by the FCC to perform the functions of the national PA.

JURISDICTION

3. The Commission has jurisdiction of this matter pursuant to 47 C.F.R. § 52.15(g)(4) and Industry Numbering Committees (INC) Number Pooling Guidelines Sections 3.7 and 12(c).

¹ *Numbering Resource Optimization, Report and Order and Further Notice of Proposed Rulemaking*, 15 FCC Red 7574, FCC No. 00-104 (2000).

This provision provides that a carrier may challenge Neustar's decision to deny numbering resources to the appropriate regulatory authority.

BACKGROUND AND REQUEST FOR RELIEF

4. On April 16, 2015, Windstream filed a request with the PA for a single "thousands" block of numbers for a Local Routing Number ("LRN") to serve customers in Windstream's Hastings rate center. A copy of the Application is attached as **EXHIBIT 1**.

5. The additional numbering resources are required to permit Windstream to provide service via a new packet switch that is being deployed to complete a project supported by the FCC's Connect America Fund Phase II ("CAF2") in the Hastings, Florida rate center. Pursuant to the applicable industry *Location Routing Number (LRN) Assignment Practices document (ATIS-0300065)*, Windstream must establish a unique LRN to identify the recipient switch or POI and must establish one LRN per LATA per switch from an assigned NXX for the recipient switch in the number portability capable network. Thus, Windstream must obtain an LRN for this new packet switch. Also pursuant to industry guidelines, only an NXX code holder can obtain an LRN, thus necessitating Windstream's request for an NXX code, for the Hastings rate center. (It should be noted, however, that Windstream would retain only a single thousand-number-block from the new NXX code.)

6. On May 11, 2016, the PA denied Windstream's request on the grounds that Windstream had not satisfied the months-to-exhaust ("MTE") criteria established in the Central Office Code Assignment Guidelines. A copy of the PA's denial is attached as **EXHIBIT 2**.

7. Windstream has demonstrated a verifiable need due to its needs in connection with a CAF2 project upgrade to this rural exchange.

8. Windstream cannot satisfy the need for numbering resources from its current inventory or in any other manner and has exhausted all other available remedies.

9. FCC rules make it clear that a carrier may challenge a numbering resource denial by the PA before the appropriate state regulatory commission and that the state commission has jurisdiction to affirm or overturn the PA's decision to withhold numbering resources.² The FCC specifically grants state commissions "flexibility to direct the NANPA or Pooling Administrator to assign additional numbering resources to carriers that have demonstrated a verifiable need for additional numbering resources outside of these specifically enumerated instances."³ In particular, in establishing the safety valve, the FCC recognized that conditions that could give rise to a need for additional numbering resources "might include situations where a carrier has multiple switches within a rate center but it is unable to readily share numbering resources among those switches."⁴

10. As set forth above, Windstream has demonstrated a verifiable need due to a deployment of a new switch and corresponding new service in connection with a CAF2 project upgrade to this rural exchange. The Commission has previously received similar requests from carriers, both ILECs and CLECs in which the carriers have asked the Commission to overrule a decision of the PA. The Commission has granted these requests.⁵

² See 47 C.F.R. § 52.15(g)(3)(4).

³ *Numbering Resource Optimization, Implementation of the Local Competition Provisions of the Telecommunications Act of 1996, Third Report and Order and Second Order on Reconsideration*, FCC 01-362, 17 FCC Rcd 252, ¶ 61 (2001) ("Numbering Optimization Third Report & Order").

⁴ *Id.* at ¶ 58. See also *id.* at ¶¶ 61 and 65.

⁵ See Docket No. 160044-TP, Order No. PSC-16-0100-PAA-TP (F. P.S.C. Issued: March 11, 2016); Docket No. 160043-TP, Order No. PSC-16-0099-PAA-TP (Fl. P.S.C. Issued: March 11, 2016); Docket No. 150197-TL, Order No. PSC-15-0412-PAA-TL (Fl. P.S.C. Issued: September 30, 2015); Docket No. 150183-TA, Order No. PSC-15-0350-PAA-TA (Fl. P.S.C. Issued: September 1, 2015); Docket No. 150174-TA, Order No. PSC-15-0328-PAA-TA (Fl. P.S.C. Issued: August 14, 2015); Docket No. 150156-TL, Order No. PSC-15-0253-PAA-TL (Fl. P.S.C. Issued: June 24, 2015);

11. Granting Windstream's Petition will not adversely affect the numbering resources available for use by carriers throughout the state in providing telecommunications services to their customers. Granting Windstream's request is in the public interest and consistent with the FCC's rules and decisions.

12. Windstream respectfully requests that the Commission act upon this Petition within ten business days. Expedited treatment is required to meet the needs of the persons to be served through the switch and Windstream's internal business plans and schedule.

13. The FCC also has recognized the importance of timely action:

[W]e recognize that in many instances, the failure to address a request for additional numbering resources can impair a carrier's ability to stay in or expand business. We therefore direct states to act on carrier requests for a safety valve as expeditiously as possible. Although we do not establish a specific time limit for states to act on these requests, we believe that, in most instances, 10 business days from receipt of a request that the state determines to be sufficiently detailed and complete will be sufficient time to review and act upon safety valve requests.⁶

WHEREFORE, Windstream respectfully requests that the Commission:

1. Overturn the PA's decision;
2. Direct the PA to grant Windstream's requests for numbering resources; and
3. Enter an Order doing so within ten business days, or as soon thereafter as is possible; and
4. Grant Windstream such further relief as may be appropriate.

⁶ *Id.* at ¶ 66.

Respectfully Submitted,

/s/ Cesar Caballero

¹ Identify type and reason for change(s) in Section 1.4(e).

² A list of the current Code Administrator(s) who can provide assistance in completing this form is available upon request from NANPA.

³ The NXX field is required for any code request in which there is a change or the NXX is being returned.

⁴ Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments may contact NECA (800-228-8597) to be assigned a Company Code (s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignment should direct questions regarding appropriate OCN usage to the iconectiv Telcordia Routing Administration (TRA) on 732-699-6700.

⁵ This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the eleven-character iconectiv COMMON LANGUAGE CLLI™ Location Identification of the applicant's switch or POI. (Telcordia and CLLI are trademarks and COMMON LANGUAGE is a registered trademarks of Telcordia Technologies, Inc. dba iconectiv)

⁶ Rate Center name must be a tariffed Rate Center associated with toll billing.

⁷ Applies to any code applicant connecting to the Public Switched Telephone Network via a tandem owned by a different carrier.

⁸ This is an eleven-character descriptor provided by the owning entity for the purpose of routing calls. This must be the CLLI™ Location Identification Code of the switching entity/POI, and is the same on Part 2, Form 1, Page 2 of 2.

⁹ Code applicants should request an effective date that is at least 66 calendar days from the submission of this form. It should be noted that interconnection arrangements and facilities need to be in place prior to activation of a code. Such arrangements are outside the scope of these guidelines.

the requested effective date.

¹¹ Select if you are the current Code Holder

¹² Select if you are not the current Code Holder

¹³ The Applicant will indicate "YES" if the NXX being requested will be used for thousands-block number pooling and will leave this field blank if it is not.

¹⁴ An incomplete form may result in delays in processing this request.

Signature of Block Applicant Title

Date

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator's name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the iconectivTM LERGTM Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by iconectiv Telecom Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch

Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLI™ tandem of the facilities based provider ^{xi}. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. They also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers must indicate the updated/current information in regards to contaminated TNs on the block they are returning to the pool. Blocks with over 10% contamination (101 TNs or more) shall not be returned to the pool unless they meet criteria outlined in section 9.1.2 of these Guidelines. If the block being returned is over 10% contaminated the PA shall seek a new block holder. If question c and/or d have a response of No, the request for return shall be denied.

The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

Footnotes:

ⁱ Identify the type of change(s) in Section 1.5.

ⁱⁱ The Pool Administrator is available to assist in completing these forms.

ⁱⁱⁱ A CO Code application will also need to be submitted to the PA.

^{iv} Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to (TRA) (732-699-6700).

^v This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the 11 character CLLI™ code of the switch /POI.

^{vi} Rate Center name must be a tariffed Rate Center.

^{vii} Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.

^{viii} Please ensure that the NPA-NXX of the LRN to be associated with this block(s) is/will be active in the PSTN prior to the effective date of the block(s).

^{ix} Select if you are the current Block Holder.

^x Select if you are not the current Block Holder

DR-57: You do not meet the MTE and/or Utilization requirements, therefore this request for a new code is denied. You may proceed with requesting a State Waiver from the appropriate state commission using this Part 3 denial. If you are in disagreement with the disposition of this request, please refer to the Thousands-Block Number (NXX-X) Pooling Administration Guidelines for the appeals process.

Request withdrawn.

Explanation:

Assignment activity suspended by the administrator.

Explanation:

Remarks:

¹ This is an eleven-character descriptor provided by the owning entity for the purpose of routing calls. This must be the CLLI TM Location Identification code of the switching entity/POI shown on the Part 1A form (LERG ROUTING Guide and CLLI are trademarks of Telcordia Technologies, Inc. dba iconectiv)
