Subject: Testimony for Docket Number 160021-E1

As a senior trying to survive on a limited income, I cannot afford to pay more for my electricity. FPL's request would allow an unprecedented return on equity (shareholder profit) of 11.5 to 12.5 percent at the expense of taxpayers who have no alternative. Approving this rate increase would mean taking food and medicine away from seniors -- the most vulnerable of your constituents -- to give greater profits to FLP shareholders. I am writing to ask that you NOT approve this rate increase that FLP residents cannot afford. Thank you.

God bless,

Patricia Long
