First of all. we are aware that FPL had no competition. This is and always has been a "terror" the the citizens who are subject to being exploited. Without competition, we face dictatorial behavior on the part of our service providers. Florida has many citizens who are being helped with their utility bills. This, of course, is probably true of many states. That doesn't make it morally, nor ethically nor business' motivation to hike rates. If the raise is going to "Fat Cats" pockets, it is more corrupt than 'good business'. Don't raise the rates!
