Dear Ms, Stauffer:

FPL's current proposed rate increase request is nothing more than a disaster for senior citizens that have moved to the state of Florida to live out their remaining years in modest comfort. Those seniors on fixed income surely know that there is no possible way to keep costs from rising. It's a fact everyone lives with each year no matter what age. But for those on a fixed income those rises play havoc with their financial as well as their physical stability.

Re: Docket #160021-E1

Dear Ms. Stauffer:

FPL's current proposed rate increase request is nothing more than a disaster for senior citizens that have moved to the state of Florida to live out their remaining years in modest comfort. Those seniors on fixed income surely know that there is no possible way to keep costs from rising. It's a fact everyone lives with each year no matter what age. But for those on a fixed income, those rises play havoc with their financial as well as their physical stability.

FPL reportedly will garner a \$1.6 billion profit this year without benefit of this proposed increase. Senior citizens who pay their taxes to the state of Florida, spend their money in the state helping to support the state economy, hardly need another monopolistic company feathering their bed for executives at the top.

When will this insanity stop? Only when our governing bodies do the responsible thing and say NO!

Ms. Stauffer, it is time for **you to do the responsible thing!** We senior citizens need responsible representation.

Sincerely, Sheldon and Marilyn Wallerstein
