Response requested? No

CC Sent? Yes

Comments:

the recent FPL req. for 24% hike is totally against the public good- they are already making millions in profit as a monopoly and I need my interests looked after against this behemoth corporation- At this time there is no need whatsoever for them to take more money from my wallet when my(and millions of others) pay only raises by 2 % - dont be scared to tell them flat out NO- and also NO to year by year raises..
Thank you for looking out for the public..

COMPLAINT INFORMATION

Complaint: Other Complaint against Florida Power & Light Company

Details:

The Public Service Commission should not give FPL a rate increase. FPL, a greedy business is a monopoly.

If they had a competitor, they would have to deal with what the market is willing to pay.

Thank God for Solar Energy...which we will be switching to very soon.
