Subject: Opposition to FPL proposed rate hike

Dear PSC Commissioners,

I OPPOSE FPL's rate hike request for gas-burning power plants that are unnecessary. FPL's rate hike is a poor, detrimental and short-sighted action that is antithetical to better stewardship.

I am particularly concerned that the new billion-dollar expenditures on gas plants in FPL's rate increase proposal will needlessly expose me and my fellow Floridians to more expensive electricity now and in the future. I want FPL to invest in affordable solar energy instead.

Let's all work together to be better stewards of our precious resources, environmental health, financial decisions and community trust.

Respectfully.
