Sear Public Service Commission,

I realize my little voice is too small to bring any changes ahead but I wanted to at least speak out against Gulf Power's latest rate increase. It will be detrimental to our family, for we already have to suffer through the cold winters and heat during the Summer because we simply cannot afford to pay Gulf Power anymore that their already astronomical rates! I also have a baby on the way and am very upset about this proposal as it will not only affect my family now (I have a 4 year old and a 2 year old) but now my baby to be.

Thanks for your attention. As mentioned, I am powerless since they will get the ir way but I have to give my personal input.

Thanks,

Jennifer Boswell

“Mainly because of decreased fuel prices” which I suppose would reduce Gulf Power’s overall cost of operations, they find it necessary to seek a rate increase.
This just doesn't make sense sense to me.

I am a home owner, widowed and elderly, with a home of approximately 2800 sq. ft. I am the only person living in my house. My bills for 2016 electricity came to \$207.55 per month. Sounds good so far.

I also have propane gas that runs the following: home heat, water heater, clothes dryer, stove and oven, fireplace logs.

Electricity runs my A/C system. I recently purchased two new units of supposedly electricity conservation types. It also supplies my lighting, garage door opener, refrigerator, small appliances, and chargers. Not including ECUA, Cox, and Verizon, my utilities run 327.55 per month. I also use the new light bulbs in my lighting to conserve electricity.

It is clear to me (and everyone else) that the power companies spent millions on deceptive advertising to defeat the solar amendment in the recent election when they could have, should have, used the money to contain present rate structure and make improvements rather than make the public pay for their debacle with a raise in rates. Thank goodness the public saw through their deception and passed the amendment.

I am totally against their proposed rate hikes. I no longer have respect for their honesty with the public. I hereby request that you refuse the rate hike. I will attend the Jan. 26th meeting in Pensacola. Thanks very much.

Florence K. Jackson
