

Dear Sir -

I'm against this rate increase for Gulf Power

First let me explain they tell every body you can
save on your Electric bill. By doing things to improve
your home. Well here goes a year ago they had a
rate increase. The line that goes to your home they call
this the base rate - It went from \$10.00 mo. to \$18.60
then the Street Light went from \$5.00 to \$10.00.

They tell you how to save money on your Elect. Bill -
well here goes - First I bought a new 3 Ton Heat Pump
and A/C. Then I bought a new Hot Water Heater with a
Timer on it - I bought a new washing Machine and Dryer -
Had 1 1/2 inches of Fiberglass Put in attic - Made it radiant
R-38 - Had the wall between the Bed Room and Hall way

had the Slat Rock removed - and installed insulation in there
and redone the wall's over - Last year I got a new
Stove, Dish washer, Microwave, had ceiling fans Put in all
the Bed room - even in the Kitchen - Three years ago
I had all new gas filled windows Put in they have
big window wood - changed all light bulbs to the LED
Bulbs - I even have to pay for there Power Poll on
County Right away - Its on a Percentage charge and it
changes with the light bill - Gulf Power collect's it for
the County they call it a franchise fee - Now they call it was
\$6.71 added to the Bell Dec. Bill it was \$7.94. With all
this I have done there has been very little change.

Does the T.V. and cable co. and Phon co. Do they pay for
the use of Gulf Power Poll to hook up to - ? ? ? Being the Poll's
belong to Gulf Power - over

With
~~With~~ all this no wonder they want a rate increase
if this causes your light Bill to drop and raise
Electricity - and every body does it. This don't make
sense - To then turn and and charge the same
people more on the light Bill & make us the loss

Thank you
Oscar Green
