**Subject:** Rate Hite Rape

The proposed rate hike requested by Gulf Power is offensive. Many of us middle class workers would be set back by leaps and bounds. I can only imagine the devastation it would cause the low income users! I shiver a bit in the winter and sweat a little in the summer to maintain the recommended temperatures to keep my costs down. What a slap in the face to know that even experiencing a little discomfort, I am still going to have to struggle to pay for a service that I must have and cannot get from anywhere else. Shame on Gulf Power!!!

**Subject:** A bout gulf power

I think it should not go up because some people are on fixed incomes so we get a dollar rays on our checks and gulf power won't to take it from us so I think that is wrong for us IT is hard enough to pay our bills know

**Subject:** Now, HEAR us!!

We, the widowed, living alone seniors on fixed incomes from social security (and if fortunate, a small pension) as well as many other residents of meager means, cannot possibly afford a GP bill of \$50 before even one kw of power is used. We do NOT have incomes to support a rate increase of that nature.

I DO understand increases from time to time, but widows, seniors, those on limited incomes with children due and low minimum wages from jobs they work should be exempt. Surely a company like GP DOESN'T have to prey on the community's vulnerable to continue to pollute our air!

Our exemption is the right thing to do!!

Thank you!!

**Subject:** Gulf power rate increase

Please please do not raise the Gulf Power rate. It will also increase the city tax to Gulf Power. I am a senior citizen living on a fixed income of less than 1800 .00 a month please please don't do this. 6.9% increase is more than any Social Security increase that I will ever get. By increasing the Gulf Power I will have a difficult time keeping up with just the cost of utilities. I have been a resident in Pensacola for 33 years.

Thank you  
Sharon Dickinson

**Subject:** Gulf power rate hike

I find that this rate hike is absolutely absurd and it is a heavy burden to place on families that are already struggling in this economy. We do everything we can to keep our rate low and we are sick and tired of being robbed by utility companies. We have limited our power as far as we can and now they want to flat out steal from us??????
