Dear Commissioner Patronis ,

As a senior trying to live on a fixed income, you are making my life more difficult than it need be. I deliberately minimize my power usage as best I can (as you can see). I dare say, much better than you do.

My bill:

Actual fuel usage	\$6.30	Extraneous charges: non fuel	\$15.84
		customer charge	7.87
		storm charge	.30
		gross receipts charge	.78
		franchise charge	<u>1.93</u>
			\$26.72

You have decided I will pay more than 4 times more for extras than actual service. Moreover, you are now making sure I pay more starting in March and "High Dividend Makes FPL Shine" so dividends will continue to increase paid by us customers. I really appreciate electric service as I have lived without it. Is there any concern on your part that service will become unaffordable to many of us not demanding the government pay for us?
