CONSUMER COMMENTS
This increase will be the third increase in water and sewer rates in the last 4 years. In 2014, my total water and sewer bill for 3,000 gallons was \$34.04.
In 2015 my bill for the same 3,000 gallons went to \$52.38, an increase of 53.9%.
In 2016, my bill for the same 3,000 gallons went up again to \$57.38, a 9.5% increase.
With this proposed increase, my bill for the same 3,000 gallons will go up to \$76.16, an increase from 2016 of 32.7%.
In all, since 2014, if this increase is allowed to happen, we will have seen an increase in our water and sewer cost from 2014 to 2017 of 123%!
We have woke up on many mornings over the last four years where we have had no water or very low water pressure. The service rendered by Lakeside Waterworks certainly doesn't warrant them being allowed to charge one of the highest water utility rates in the state.
Just like the rest of us, Lakeside Waterworks can learn to operate within their means. Most of us have seen no increase in our income, and certainly none of us has seen our income go up by 123%.

Any email or other correspondence sent to a Florida Public Service Commissioner, or any other public official and/or employee of the PSC, in the transaction of public business is considered a public record and is subject to Florida's Public Records Law. This means that Florida law generally requires the PSC to provide a copy of any such email or correspondence, upon request, for inspection and copying to any Florida citizen or to any member of the media.
