Subject: RE: New Docket Question

Hey Dorothy,

No, there is no particular reason that the language needs to be exactly what was on the req to est dkt form. With that being said, please update the docket title to...

"Request for approval of name change on CLEC Certificate No. TY047 from Network Billing Systems, L.L.C. to Network Billing Systems, L.L.C. d/b/a Fusion d/b/a Solex.

In response to No. 7 on the form, both boxes were checked because supporting documentation was attached to the request form but also additional documentation MAY be provided at a later time.

Finally, yes, DN 05209-17 should be moved from the undocketed matters of 170000 to this new docket that is being established.

I hope that this clears things up!! If you have more questions, please let me know!

Thanks, Dorothy!

Catherine

Subject: New Docket Question

Hi Catherine,

We've received a request to establish docket for approval of a name change for Network Billing Systems. Is there a particular reason that the language needs to be exactly what you've got on the req to est dkt? If not, please provide additional information.

No. 7 on the request to est dkt says, "check one:" and both boxes are checked. 1) supporting documentation attached; and 2) to be provided with recommendation. I note that a letter from atty Isar is attached. Should No. 2 be whited out or is additional information to also be provided with the recommendation?

Additionally, please advise if DN 05209-17 should be moved from undocketed matters (170000) to the new docket when it's established.

Thank you for your help!

Dorothy
