**Subject:** "Utilities, Inc. Florida Docket No. 20160101 rate increase request."

To whom it may concern;

This note is related to: "Utilities, Inc. Florida Docket No. 20160101 rate increase request."  
I just read the proposal for the rate increases and was shocked to see how you are going to allow one part of the utility's population bear the brunt of the rate increase. Do you have something against the people that are serviced by UIF? This is totally ridiculous and unfair.

Here is a quote from your website: "The Florida Public Service Commission is committed to making sure that Florida's consumers receive some of their most essential services — electric, natural gas, telephone, water, and wastewater — in a safe, reasonable, and reliable manner."

I would like to know how these rate increases can be construed as reasonable when the other parts of the utilities are paying less than half of the proposed increase for UIF.

I would urge you to reconsider so that the increase is reasonable.

Thank you in advance.
