Subject: Utilities, Inc. Florida Docket No. 20160101 rate increase request

Hello,

The facts of this rate increase and that Seminole County residents will essentially be subsidizing other parts of the state by accounting for 70% of the utilities is appalling.

If 80% of the recommended increase is accepted, our bills will go up by about 58% in year 1. NO bill should ever go up by 58% in 1 year. All of you commissioners will be household names in and around Seminole County for all the wrong reasons.

I strongly hope you reconsider your decision to accept as much as it sounds like you have already agreed to, and realize that a 58% increase in any bill will present serious sticker shock for a lot of residents.

I am sure the none of you currently reside in this county which is probably why there is not really an issue with it.

Eric Johnson
Longwood, FL
