To whom it may concern,

I would like to express my concern regarding the proposal to hike water rates in Seminole County. My husband and I are both medically retired military and moved to our home in Longwood just last year. Like the majority of people, we are on a limited income and budget. A 58% increase, while it may not sound like much, would be devastating to our household. Water is not a luxury, but a necessity for any family. I hope and pray that you will reconsider this increase and the effects that it will have not just on our household, but to many within our community.
