Subject: Regarding Utilities Inc. Rate Increase

To whom it may concern,

I am writing to you as a resident of Seminole County, Florida that lives in an area that could soon be devastated by the proposed 130% rate increase by Utilities Inc. for our water service. Seriously? 130%? I am appalled of them even suggesting such an amount. Please let this letter serve as notice that I vehemently oppose this increase and consider it a crime to try to pass this ridiculousness.

Please vote against this proposal.

Sincerely,
Lisa A. Waller
