Subject: RE: Proposed 130% rate increase proposed by Utilities, Inc.

Good morning Mr. Nottingham,

We will be placing your comments below in consumer correspondence in Docket No. 20160101.

Sincerely,

Brandy Butler

Commission Deputy Clerk I
Florida Public Service Commission

Subject: Proposed 130% rate increase proposed by Utilities, Inc.

The purpose of this email is to voice my opinion against allowing Utilities, Inc. to be allowed to raise their rates by an unrealistic amount of 130%. This would cause a tremendous financial burden on many of the Utilities, Inc. customers who currently live on fixed incomes and a burden on the multitude of Home Owners Associations that will have to pass this terribly high increase to all it's members.

As stated before, I find it unrealistic to allow a company overseen by the PSC be allow to, for lack of a better adjective, gouge their customers in this manner.

Sincerely,

Paul Nottingham, President
Shadowood Village Homeowners Association, Inc.
101 Starling Lane
Longwood, FL 32779
