Good Afternoon Ms. Finver,

We will be placing your comments below in consumer correspondence in Docket No. 20170009 and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Nickalus Holmes

Subject: Docket No. 20170009 - Oppose FPL's Unfair Request

Dear FL PSC,

Dear Commissioners,

Just say no! Please reject FPL's request in Docket No. 20170009.

This is not a case of, "If you build it they will come." This is a case of, "if we charge people to build it but never do, we'll still make you pay for it."

Why does FPL get to place the financial risk and burden onto customers like me to pursue new reactors at Turkey Point? The project doesn't even have a builder. Westinghouse, filed for bankruptcy and is out of the nuclear construction business.

FPL refuses to commit to actually build the reactors, nor will it commit to a price tag. They can't even show that the reactors are in the best economic interest of their customers. It's ludicrous. They haven't even addressed the previous algae bloom in the cooling tanks.

If the reactor project is so speculative that FPL cannot provide you with evidence that the project remains a good deal for customers, how can FPL then ask your permission to incur even more costs pursuing the licenses for the project, which ultimately allows it to recover its costs plus interest from customers? If they want to do this so badly, have their investors foot the bill. Not me.

I have already paid too much for too long toward this Casper the Ghost of a project, as have all the other FPL customers. Enough is enough. Thank you in advance for considering customers' economic interest in this proceeding. Please reject FPL's heavy-handed and unprecedented request.

Sincerely,

Sincerely,

Jody Finver
