Subject: Docket No. 20170009 - Oppose FPL's Unfair Request

Dear FL PSC,

Dear Commissioners,

Please reject FPL's request in Docket No. 20170009. New reactors at Turkey Point are not realistic right now, a project for which there is no builder. I understand the builder, Westinghouse, filed for bankruptcy and is out of the nuclear construction business. FPL can't show that these reactors are in the best economic interest of their customers.

If FPL cannot give you evidence that the project remains a good deal for customers, how can FPL ask your permission to add more costs pursuing licenses for the project, which ultimately allows it to recover its costs plus interest from customers?

This would be a bad deal for me and other FPL customers. Thank you for considering my economic interest in this issue. Please reject FPL's request.

Sincerely,

Sincerely,
Donna Ragland- Greene
