Subject: Docket No: 20170150-EI

PSC,

The rate increase requested by Florida Public Utilities under the docket referenced in the subject line of this email should be denied. FPU's rates are extremely high and unbearable. Our monthly home bill is \$475-\$600 per month, year round. My parent's keep their home set at 83 degrees and the electric bill is still nearly \$200 per month for 2 old people. Working families and elderly on fixed incomes cannot tolerate this high rates as it is, so the request to increase the rates should be denied.

Thank you for your time.

Todd Large
