Subject: RATE INCREASE PROPOSED BY PLURIS

As a homeowner in the Wedgefield neighborhood, I would like to request that you not agree to the rate increase that Pluris is requesting. At a minimum, my water bill is over \$130 every month. The quality of the water is disgusting (it damages our appliances, bleaches our clothes and has made some homeowners ill. If the PSC grants the increase, our base water would go UP from \$24.71 to \$28.32, base wastewater would go UP from \$29.01 to \$30.85, water per 1,000 gallons would go UP from \$7.79 to \$8.93 and wastewater per 1,000 gallons would go UP from \$4.24 to \$4.51. If that happens, I wouldn't be able to afford a house here in Wedgefield. Please help us!
