

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Gregory Aldrich

Electric Utility Provider : FPL

Zip Code : 33467

Category : Power restoration time

Comments : I lost power for 54 hours beginning Sunday Sept 10 @3:30pm. By comparison I lost it for 108 hours during Francis, 9 hours during Jeanne, and 80 hours during Wilma. we never lost power during Matthew. We did not experience hurricane force sustained winds at my house. No damage to the house and minimal landscape damage. That indicates we got nothing much beyond a strong tropical storm. I am a bit skeptical of what the \$3B in system hardening actually accomplished. However I am pretty sure I will be on the hook for additional storm charges on my bill for the next year or so.
