

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : mary mclellan

Electric Utility Provider : EI802 - Florida Power & Light Company

Zip Code : 34243

Category : Information provided by electric utility provider after the storm

Comments : FPL installed a new meter in the electrical room in my condo building for my unit 403. I was not receiving full or steady power. The master electrician cannot connect the meter to my unit because it is unsafe. A box is needed for the meter. I have been told that a box is not available because the building is old and a box is not available. My unit is inhabitable, I am 90 years old, a Florida citizen, living in cold Massachusetts and unable to occupy my Florida home. FPL will not help, the electrical contractor cannot repair the connection. I need a resolution immediately.
