Comments : Do not reward electric companies for poor management decisions. After the last hurricanes 12 years ago, they did NOTHING to harden the system to withstand a cat 5 hurricane so thousand of people loast tons of food and had to absorb the lss. Now the ones who caused the problem by not putting the wiring underground and protected want to be rewarded with higher income for their mismanagement. NO RATE InCREASE, let them take it out of the managements pay and bonuses since they caused the problem.
