CONSUMER COMMENTS

I do not support nor approve of granting a rate increase to Pluris. It's a sad commentary when you live in Wedgefield and can say of the many residents I have spoken to not a single resident drink Wedgefield water. Equally as sad is that the PSC rubber stamps everything with "Approved" as in the 2013 rate increase that amounted to a 42% overall rate increase for the Wedgefield community. Where does this madness stop? Pluris is a private company and they have investors that must be fed all the time. All investors want more! It's never enough! And in the middle of all this madness a mountain of frustration is continuing to mount each day. I want affordable and drinkable water and it will not happen with Pluris.

"Deny the rate increase"
