Re: Revisions to Program Standards – Better Business Program, Low Income Weatherization Assistance Program, and Neighborhood Energy Saver Program

Dear Mr. Bernier:

On August 20, 2015, the Commission issued Order No. PSC-15-0332-PAA-EG in Docket No. 150083-EG, approving the Demand Side Management (DSM) Plan for Duke Energy Florida (DEF) and granting staff administrative authority to approve program standards. DEF filed program participation standards on October 16, 2015, which were administratively approved on October 29, 2015. DEF requested certain revisions to the approved program standards on December 21, 2015, which were administratively approved on December 22, 2015. DEF requested certain modifications to the approved program standards on August 30, 2016, and February 7, 2017, which were administratively approved on September 16, 2016, and April 3, 2017, respectively.

On December 7, 2017, DEF filed two letters requesting approval of modifications to program standards: (1) for their Better Business Program, and; (2) for both their Low Income Weatherization Assistance Program and their Neighborhood Energy Saver Program. Following the filing of these letters, staff requested additional information from DEF. On December 27, 2017, responses to staff's information requests were provided, including revised versions of the previously submitted program standards. The Commission staff has reviewed the revisions and has determined them to be consistent with the DSM Plan approved by the Commission in Order No. PSC-15-0332-PAA-EG. Staff requests that DEF notify the Commission prior to any additional changes being made to the program standards as filed.

Sincerely,

A handwritten signature in black ink, appearing to read "Tom Ballinger".

Tom Ballinger, Director
Division of Engineering
