

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Dennis Donegan

Electric Utility Provider : E1802 - Florida Power & Light Company

Zip Code : 33321

Category : Power restoration time

Comments : Yes, local concentration of solar panels/battery storage that can function independent of the damaged grid after a casualty would be a great step forward.

Problem is, power companies loose money not selling power from fossil/nuc.

Use old golf courses for solar farming in populated areas.
