

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : William Claiborn

Electric Utility Provider : E1802 - Florida Power & Light Company

Zip Code : 34285

Category : Other

Comments : I believe that the electric utilities should be required to allow, with proper safety switches, solar owners to use this energy for their own during times of power outages. Further, FPL and others should be required to upgrade their grid to make it more resistant to future storms and sea level increases.
