Comments : We live in a high rise on the beach in Ft. Lauderdale. It is a 55+ building, and it is essential for our elevators to work, especially during an emergency.

When we lose power, lives are at stake.

We can't afford more business-as-usual, and it's time to invest in a safer, more resilient power grid that includes more clean energy options like solar and battery storage to provide power during outages. Our utilities can and must do better!
