

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Cynthia Oelrich

Electric Utility Provider : EI801 - Duke Energy

Zip Code : 34480

Category : Other

Comments : We need to encourage more solar development. The sun is shining while we're it's still windy afterwards . With battery backup there'd be a very good chance of no loss of power. If a household had the battery backup,the only thing to keep interfere with power would be damage to it. It's a shame the Sunshine state is behind others in the development of this renewable source.
