

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Martin Donovan

Electric Utility Provider : EI804 - Gulf Power Company

Zip Code : 32502

Category : Other

Comments : As a lifetime FL resident who has experienced numerous hurricanes, I believe the best solution to power loss after a storm is to encourage

Individual solar energy systems with battery storage capacity for single family homes, multi family properties, and businesses. These solar systems would provide immediate power after a storm, and dramatically shorten the "recovery period" for affected communities.
