---

Chris,

The contract for FIBER with Voice on an analog router has been sent to you. We have already processed the cancelation for the DATA only FIBER and the credit request was submitted, you should have the RDS Tracking number in your inbox.

After the eSigning of this contract Chris I will be able to ship you the correct equipment and I will be able to dispatch for install. Then we can activate the FIBER. Please send me the list of phone numbers that pertains to your business. Once again my apologies for the amount of time this took Chris.

Regards

**Subject:** RE: KW Resort Utilities - AT&T FIBER

To All,

KWRU 017474

Utility staff contacted AT&T today and the AT&T representative told staff that the account (#8310007134897) will be closed in mid-March. The Utility would like to move forward on the voice and data circuit. I was told, by Carlos Ruiz, that once the 50Mbps (data only) account is closed we can then open an account for the service that was desired from the beginning (voice and data circuit).

I am asking for your help now so that we may begin working on laying the ground work for the voice and data circuit now. I ask you kindly to please answer the following questions so that the Utility may understand the service AT&T is providing and the manner in which it is being provided. The answers you provide will help utility management and the utility's IT consultant with planning for the Utility's future needs.

Please answer the following questions as they relate to a new AT&T voice plus data fiber circuit.

- a. Please confirm that the KW Resort Utilities existing COMCAST phone lines will be ported over/converted to AT&T phone lines at no additional charge.
  
- b. Please confirm that AT&T will provide the digital to analog conversion box for the 10 phone lines at no additional charge.
  
- c. Can AT&T provide a 20Mbps fiber circuit for voice plus data? If AT&T can't please explain why as the Utility is aware of other AT&T customers that have a 20Mbps fiber voice and data service.

I thank you in advance for your assistance in this matter.

**Subject:** RE: KW Resort Utilities - AT&T FIBER

Carlos and Roberto and Kenneth and Angela,

**AT&T has still not closed the account #8310007134897!!!!**

AT&T told me in December (via email on December 27, 2017 at 12:07PM) that this account is closed and zeroed out. What is happening? I can't understand why this is taking this long, especially when I was informed by Carlos Ruiz that AT&T policy requires that this account be closed before a new service with BOTH voice and data can be set up. The voice and data service is needed right now.

Please help resolve this matter so we can move forward with the new voice and data circuit.

Sincerely,

Christopher A. Johnson

Chris,

Happy Holidays. We have already canceled the 2 accounts which were previously billing. I have

KW RU 017477

provided our finance department the account information so that they may remove these collection holds on your account. After these collections holds are removed I will be able to replace the orders.

Warm Regards

On Dec 27, 2017, at 10:37 AM, Chris Johnson <[chris@kwru.com](mailto:chris@kwru.com)> wrote:

Carlos Et al.,

Can I please get a status on this.

The last I heard I was told by Carlos to cancel the original fiber circuit order which I promptly did and sent an email informing you all of this action on December 14<sup>th</sup>.

I never received answers to my questions in the email of December 13<sup>th</sup>. For your convenience I have included the questions below.

- a. Please confirm that the KW Resort Utilities existing COMCAST phone lines will be ported over/converted to AT&T phone lines at no additional charge.
- b. Please confirm that AT&T will provide the digital to analog conversion box for the 10 phone lines at no additional charge.

1. A new order will be placed by Carlos. This order will be 50Mbps (up and down) fiber circuit. I asked if we could place a new order for a 20Mbps fiber circuit and the answer I received (from Carlos) was no. Why is this answer no? Do you provide 20Mbps circuits to other customers and if so how is it that I can't get one and others can?

I know it is the holidays but it has been 15 days since my inquiry.

Chris,

Please follow the information below. I received it from my Technical Consultant Wade. We need you to cancel the order first so then I can go to billing with the claim.

please call  
[1-844-ATT-NOD3](tel:1-844-ATT-NOD3) (844-288-6633)  
Enter option 2 and then option 3.

KWRU 017479

Carlos Et al.,

To summarize the conversation from yesterday this is what you laid out for me:

2. AT&T will cancel the original order (AT&T Account#8003-109-4370 AT&T Billing# CQ TF8564 01 001) and no monies will be owed by KW Resort Utilities Corp. The original contract shall be null and void and the account shall be closed in good standing.
3. A new order will be placed by Carlos. This order will be 50Mbps (up and down) fiber circuit. I asked if we could place a new order for a 20Mbps fiber circuit and the answer I received (from Carlos) was no.
  - c. The 50Mbps fiber circuit shall cost \$799.00 per month for the service (2 year contract)
  - d. The 50Mbps fiber circuit shall provide up to 10 phone lines (analog) at no additional charge.
  - e. Please confirm that the KW Resort Utilities existing COMCAST phone lines will be ported over/converted to AT&T phone lines at no additional charge.
  - f. Please confirm that AT&T will provide the digital to analog conversion box for the 10 phone lines at no additional charge.

Additional Options:

4. AT&T will provide an option for Voice over IP system (9 Channel) for \$220.00/month for the service.
5. AT&T can also provide pricing for telephone equipment. The cost per telephone is somewhere between \$150 and \$200 per telephone depending on the model.

Please confirm 2c and 2d and let me know if anything above is not as we discussed.
