**DUKE ENERGY FLORIDA, LLC'S RESPONSE TO STAFF'S SEVENTH DATA  
REQUEST (NOS. 1-2) REGARDING DEF'S PETITION FOR APPROVAL OF  
DEMAND-SIDE MANAGEMENT PLAN OF DUKE ENERGY FLORIDA, LLC  
DOCKET NO. 20150083-EG**

1. Please refer to Section 16.1 of the program standards. Please explain why the words "heating and" were removed from this section of the program standards.

**RESPONSE**

The additional qualifying language was removed because a strict interpretation of the existing wording would eliminate HVAC Coils from being cleaned if the customer had gas heat or no heat. Because the primary benefit of the program is felt on the cooling side, DEF did not want to eliminate those units without electric heat from the benefits of participating in the program.

2. Please refer to Section 18.4 of the program standards. It appears there is a numbering error in this section. Please correct this error and resubmit clean and redline versions of any affected pages.

**RESPONSE**

See the attached corrected page in clean and redline versions.

**18. CHILLER/AIR CONDITIONER / HEAT PUMP TUNE-UP (*Does not include PTAC/PTHP*)**

**18.1 PARTICIPATION REQUIREMENTS**

1. Customer must meet program eligibility requirements.
2. Customer must provide proof of project cost and project date. This is typically met by submitting copies of invoices.
3. The equipment will only be eligible for an incentive once over its lifetime.

**18.2 MATERIAL AND INSTALLATION REQUIREMENTS**

1. HVAC equipment must be all electric.
2. All equipment tune-up and repairs must meet manufacturer's instructions and inspections and meet all state, county and local codes.

**18.3 CONTRACTOR REQUIREMENTS**

1. Must meet the contractor requirements as outlined in Section 3.1. If a customer chosen contractor, the contractor must meet the contractor requirements as outlined in Section 3.2.
2. Contractor must be a licensed Mechanical Contractor, Class A, B, or C, in the jurisdiction having authority.
3. Contractor must perform, at a minimum, all work as outlined below for the customer to be eligible for the DEF AC/HP tune-up incentive.

**18.4 DOCUMENTATION REQUIREMENTS**

1. Document equipment manufacturer, model and serial numbers.
2. Pre-and post-documentation form (provided by DEF) must be completed for each unit.
