Public Service Commission PSC PSC
FL

Dear Public Service Commission PSC,

As a Floridian age 50+, we are coping with skyrocketing healthcare and housing prices with minimal increases in Social Security. An increase on our monthly power bill adds up for people, like myself, who are on a limited or fixed income.

Increasing our rates will only damage Florida communities by making it harder for people to afford daily living necessities.

I and many people like me that are on a fixed income this would put a strain on our living expenses that could cost us some of the necessities that are required us on a daily bases. So this may seem like a small amount it could and probably have a real impact on many

people with a fixed income. Please consider this when making this decision very carefully, Thank you

Sincerely,

Mr. Fredrick Stutz
