Dear Public Service Commission PSC,,

Florida Power & Light gets a \$649.6 million tax cut and wants to reward its investors, not its customers?

I've had enough of FPL's corporate greed and I deserve lower electric rates.

As a Floridian in my early 60's, I am confused and profoundly disappointed that Florida Power & Light is getting a massive tax cut and, instead of passing on the money saved, it is passing those savings to shareholders. Living in South Florida requires air conditioning through most of the year to maintain a sustainable habitability. Customers across the

U.S. have enjoyed lower power bills as a result of a tax savings. I don't know why we are being treated differently-- especially since power companies are given a monopoly.

Please get FPL in line with the other major power companies here in Florida.

With skyrocketing healthcare, housing prices and minimal increases in Social Security, a decrease in monthly bills add up for people like me.

We need lower rates, now!

Sincerely,

Mrs. Janet Castaneda
