Public Service Commission PSC, PSC,
FL

Dear Public Service Commission PSC,,

Florida Power & Light gets a \$649.6 million tax cut and wants to reward its investors, not its customers?

I've had enough of FPL's corporate greed and I deserve lower electric rates.

Docket 20180046-EI | Comments from a fed up Floridian

Dear PSC

Florida Power & Light gets a \$649.6 million tax cut and wants to reward its investors, not its customers?

As a Floridian age 50+, I'm fed up that Florida Power & Light is getting a massive tax cut and is passing those savings to shareholders.

Customers across the U.S. have enjoyed lower bills as a result of a tax savings. We should too.

Many residents in Florida are on fixed incomes. I see constant ads on TV about your solar efforts and how this benefits your Florida customers costs. These ads amount to propoganda. Plus the cost to run these ads is an unnecessary waste of money that could also be passed on to its customers. We already know that sunshine in Florida is free. Voters in Florida already said a vehement NO to FPL becoming the keeper of the sun by controlling how solar is used privately. Residents should be able to freely add solar to their homes without FPL blessings. Now, your solar savings combined with these massive tax cuts FPL is receiving by law is unconscionable. Please do the right thing and pass your financial windfall for both solar and tax cuts on to your customers, we the voters in Florida and not your investors.

With skyrocketing healthcare, housing prices and minimal increases in Social Security, a decrease in monthly bills add up for people like me.

We need lower rates, now!

Sincerely,
Lorraine Fratilla
