Dear Public Service Commission PSC,,

Florida Power & Light gets a \$649.6 million tax cut and wants to reward its investors, not its customers?

I've had enough of FPL's corporate greed and I deserve lower electric rates.

I am a believer in the truth is in the middle. With that said, it would be considered a balance to split the tax cut windfall, which should be given back to the customers at least at a 50% level. With that said now, we should speak of future years and how those extra dollars are going to be allocated... Maybe the PUC should be addressing this too.

With skyrocketing healthcare, housing prices and minimal increases in Social Security, a decrease in monthly bills add up for people like me.

We need lower rates, now!

Sincerely,

Mr. Gregg Paumen
