Dear Public Service Commission PSC,,

Florida Power & Light gets a \$649.6 million tax cut and wants to reward its investors, not its customers?

I've had enough of FPL's corporate greed and I deserve lower electric rates.

As a Floridian age 50+, I'm fed up that Florida Power & Light is getting a massive tax cut and is passing those savings to shareholders.

Customers across the U.S. have enjoyed lower bills as a result of a tax savings. We should too.

I have always questioned FPL about their billing. I did my own test and for one billing period I didn't use the air conditioning, I didn't keep my outside lights on at night, I did 4 loads of laundry during that billing period at night and still my monthly bill wasn't reduced very much. They are a monopoly in south florida and unfortunately we don't have a choice of another company for power unless we invest in solar power.

With skyrocketing healthcare, housing prices and minimal increases in Social Security, a decrease in monthly bills add up for people like me.

We need lower rates, now!

Sincerely,

Mr. Robert Palo
