Dear Public Service Commission PSC,,

Florida Power & Light gets a \$649.6 million tax cut and wants to reward its investors, not its customers?

I've had enough of FPL's corporate greed and I deserve lower electric rates.

As a Floridian age 50+, I'm fed up that Florida Power & Light is getting a massive tax cut and is passing those savings to shareholders.

Customers across the U.S. have enjoyed lower bills as a result of a tax savings. We should too.

Your TV ads constantly brag about your lower bills than other states, to be accurate you should be comparing your kw rates to other utilities. If you receive wind-fall profits from federal or state legislation at least a significant portion of the wind-fall should be returned to your customers. Perhaps 75% to FPL customers and 25% to investors. The executives had nothing to do with the increase in profits due to the income tax decrease so should only share if they happen to be an FPL customer.

Sincerely an FPL customer

Kent Cronkhite

With skyrocketing healthcare, housing prices and minimal increases in Social Security, a decrease in monthly bills add up for people like me.

We need lower rates, now!

Sincerely,

Mr. Kent Cronkhite
