Dear Public Service Commission PSC,,

Florida Power & Light gets a \$649.6 million tax cut and wants to reward its investors, not its customers?

I've had enough of FPL's corporate greed and I deserve lower electric rates.

Tax savings should go back to the tax payers!!! As a Floridian age 60+, I find it hard to understand that Florida Power & Light is getting a massive tax cut while we are being tax even more every year.

Why are they allowed to raise rates to cover hurricane expenses by sharing the expense with customers but not sharing the tax windfall with those same customers. It is not fair to be passing on those breaks to shareholders. Customers across the U.S. have enjoyed lower bills as a result of a tax savings. We should too. Do the right thing on your own without being forced into it. We have no choice in power supplier so you have no competition to spur you into treating us better. Maybe we should seek legislation to break up the monopolies in these type industries to allow choices and fair treatment.

With skyrocketing healthcare, housing prices and minimal increases in Social Security, a decrease in monthly bills add up for people like me.

We need lower rates, now!

Sincerely,

Mr. Michael Waldner
