Dear Public Service Commission PSC,,

Florida Power & Light gets a \$649.6 million tax cut and wants to reward its investors, not its customers?

I've had enough of FPL's corporate greed and I deserve lower electric rates.

As a Floridian age 50+, I'm astonished and fed up that Florida Power & Light is getting a massive tax cut and is passing those savings ONLY to shareholders.

It should be included in the contract with FPL to serve as our utility company that any tax incentives savings, rebates of any type must be automatically applied to its customers in order to lower customer's bills.

I also believe that business corporations providing utility services such as water and electricity should be incorporated as non-profit or ad a co-op so any savings or profits would be returned to tts owners-customers.

Many other utilities across the U.S. have enjoyed lower bills as a result of a tax savings. We should too.

With skyrocketing healthcare, housing prices and minimal increases in Social Security, a decrease in monthly bills add up for people like me.

We need lower rates, now!

Sincerely,

Ms. Marly Silverman
