Good Morning,

Please place the attached letter in Docket #20190015.

Best regards,

Hannah E. Barker Executive Assistant to Commissioner Clark Florida Public Service Commission 2540 Shumard Oak Blvd. Tallahassee, FL 32399 (850) 413-6004

Harvey Ruvin

CLERK OF THE CIRCUIT AND COUNTY COURTS Miami-Dade County, Florida

CLERK OF THE BOARD OF COUNTY COMMISSIONERS

JUN 11 2019 F.P.S.C COMMISSIGNER CLARK STEPHEN P. CLARK CENTER SUITE 17-202 111 N.W. 1st Street Miami, FL 33128-1983 Telephone: (305) 375-5126

June 4, 2019

Mr. Gary F. Clark Commissioner Florida Public Service Commission 2540 Shumard Oak Boulevard Tallahassee, Florida 32399

Dear Commissioner Clark:

A copy of Resolution No. R-552-19, adopted on May 21, 2019, is provided to you at the request of the Miami-Dade County Board of County Commissioners.

If you have any questions or need additional information, please contact this office.

Respectfully yours,

HARVEY RUVIN, Clerk Circuit and County Courts

RESOLUTION NO. R-552-19

RESOLUTION URGING THE FLORIDA PUBLIC SERVICE COMMISSION TO SET MEANINGFUL ENERGY EFFICIENCY GOALS IN THE 2019 FLORIDA ENERGY EFFICIENCY AND PROCEEDINGS, INCLUDING CONSERVATION ACT EFFICIENCY STRONG ENERGY ESTABLISHING A RESOURCE STANDARD FOR THE STATE OF FLORIDA, ADOPTING A STRONG DEMAND SIDE MANAGEMENT PROGRAM THAT INCLUDES UTILITY REBATES, AND LEVERAGING FEDERAL WEATHERIZATION ASSISTANCE PROGRAM FUNDS TO PROVIDE GREATER ASSISTANCE TO LOW INCOME HOMEOWNERS THROUGHOUT FLORIDA

WHEREAS, Florida is understood to be particularly vulnerable to the effects of sea level

rise, due to the state's low elevation, vast coastline, and proximity to the ocean; and

WHEREAS, Florida is also vulnerable to other possible negative consequences associated with a warming planet, including stronger and more damaging hurricanes and storms, coastal flooding, extreme temperature events, increased risk and prevalence of mosquitos and widespread disease, and economic impacts associated with loss of tourism revenues, agricultural industry losses, and decreased property values; and

WHEREAS, Florida consequently is at the national forefront of confronting the challenges presented by sea level rise and climate change, and must be a leader in developing solutions to protect our residents, property, tourism, and quality of life; and

WHEREAS, Miami-Dade County has a history of supporting and implementing policies to improve energy efficiency and reduce carbon dioxide (CO2) emissions; and

WHEREAS, for example, Miami-Dade County was the first local government nationally to use the ICLEI (formerly known as, International Council for Local Environmental Initiatives) Local Governments for Sustainability advanced tools and resources to accelerate preparedness to climate change; and

WHEREAS, in addition, Miami-Dade County has committed to a countywide reduction of greenhouse gas (GHG) emissions of 80 percent by the year 2050; and

WHEREAS, energy use among the built environment, consisting of residential and commercial buildings, is a significant contributor to GHG emissions; and

WHEREAS, energy conservation and efficiency programs and policies that promote behavioral and operational changes by residents and building owners can significantly reduce energy demand from the built environment, and reducing energy use through increasing efficiency is a core strategy in the Miami-Dade GreenPrint Plan; and

WHEREAS, in addition to reducing GHG emissions, energy efficiency is an important tool to improve affordability for our residents and businesses by reducing energy bills, while creating local jobs and economic growth; and

WHEREAS, according to a report by the Southern Alliance for Clean Energy, Florida's largest utilities tend to trail other large utilities in the southeast and throughout the nation in delivering energy savings to customers; and

WHEREAS, in 2017, for example, Florida had the second to worst performance in the southeast region as a percentage of annual electricity sales, while the national average was five times higher in that same year; and

WHEREAS, in addition, efficiency savings in California, Massachusetts, Rhode Island, and Vermont in 2017 were 15-to-25 times higher than in Florida; and

4

WHEREAS, an Energy Efficiency Resource Standard (EERS) establishes specific, longterm targets for energy savings that utilities or non-utility program administrators must meet through customer energy efficiency programs; and

WHEREAS, according to the US Energy Information Administration, 24 States have EERS policies in effect; and

WHEREAS, according to the American Council for an Energy Efficient Economy, Florida ranks 36th in per capita spending on electric efficiency projects, and ranks 23rd overall in energy efficiency; and

WHEREAS, reducing the growth of peak electric demand and energy consumption became a statutory objective in Florida in 1980, with the enactment of the Florida Energy Efficiency and Conservation Act (FEECA); and

WHEREAS, FEECA focuses upon four key areas:

- reducing the growth rates of weather-sensitive peak demand and electricity usage;
- increasing the efficiency of electricity and natural gas production and use;
- encouraging demand-side renewable energy systems; and

conserving expensive resources, particularly petroleum fuels; and

WHEREAS, the Florida Public Service Commission (PSC) is statutorily required to establish goals for FEECA utilities and review such goals every five years, at a minimum; and

WHEREAS, in turn, the utilities are required to develop cost-effective demand-side management plans that meet those goals and submit them to the PSC for approval; and

WHEREAS, the 2019 FEECA proceedings thus present a once in every-five-year opportunity to reset and improve the energy conservation goals for the state's largest utilities; and

5

WHEREAS, improved conservation goals will generally lead to more robust energy efficiency programs and options directed at residential and commercial customers that reduce energy usage and provide economic and environmental benefits; and

WHEREAS, specifically, the PSC should consider setting and adopting the following meaningful energy efficiency goals when conducting its five-year review in 2019:

- Establish a strong EERS for the State of Florida;
- Adopt a strong Demand Side Management Program that includes utility rebates for USEPA Energy Star appliances, high SEER rating Air Conditioners, installation of high efficiency windows and doors, and Cool Roof Rating Council low-heat absorbing roofing; and
- Leverage Federal Weatherization Assistance Program funds to provide greater assistance to low income homeowners throughout Florida; and

WHEREAS, accordingly, this Board now wishes to urge the PSC to establish such goals for FEECA utilities in Florida,

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MIAMI-DADE COUNTY, FLORIDA, that this Board:

<u>Section 1.</u> Urges the Florida Public Service Commission to set meaningful energy efficiency goals in the 2019 Florida Energy Efficiency and Conservation Act proceedings, including establishing a strong Energy Efficiency Resource Standard for the State of Florida, adopting a strong Demand Side Management Program that includes utility rebates, and leveraging Federal Weatherization Assistance Program funds to provide greater assistance to low income homeowners throughout Florida.

Agenda Item No. 11(A)(2) Page No. 5

Section 2. Directs the Clerk of the Board to transmit certified copies of this resolution to the chairperson, members, and executive director of the Florida Public Service Commission.

The Prime Sponsor of the foregoing resolution is Commissioner Daniella Levine Cava. It was offered by Commissioner Sally A. Heyman , who moved its adoption. The motion was seconded by Commissioner Rebeca Sosa and upon being put to a vote, the vote was as follows:

		son, Chairwoman aye			
Rebeca Sosa, Vice Chairwoman aye					
Esteban L. Bovo, Jr.	aye	Daniella Levine Cava	aye		
Jose "Pepe" Diaz	aye	Sally A. Heyman	aye		
Eileen Higgins	aye	Barbara J. Jordan	aye		
Joe A. Martinez	aye	Jean Monestime	aye		
Dennis C. Moss	aye	Sen. Javier D. Souto	aye		
Xavier L. Suarez	aye				

The Chairperson thereupon declared the resolution duly passed and adopted this 21st day of May, 2019. This resolution shall become effective upon the earlier of (1) 10 days after the date of its adoption unless vetoed by the County Mayor, and if vetoed, shall become effective only upon an override by this Board, or (2) approval by the County Mayor of this Resolution and the filing of this approval with the Clerk of the Board.

MIAMI-DADE COUNTY, FLORIDA BY ITS BOARD OF COUNTY COMMISSIONERS

HARVEY RUVIN, CLERK

By: Linda L. Cave

Deputy Clerk

Approved by County Attorney as to form and legal sufficiency.
