RE: Docket No. 20180049-EI – Evaluation of storm restoration costs for Florida Power & Light Company related to Hurricane Irma.

Dear Mr. Rubin:

By this letter, the Commission staff requests that Florida Power & Light Company provide responses to the following data requests:

Please refer to Section 6 of the Settlement Agreement.

1. Please describe the situation(s) where the use of the Application (App) would not be “reasonably practicable.”
2. What are the estimated savings (monetary and time) associated with using the App for the years 2019 and 2020?
3. What are the benefits that will be realized by using the App to track expenses and time?
4. What additional features may be added to the App in the future?
5. Please calculate the difference between the Incremental Cost Methodology of Capitalized Costs outlined in Section 20 of the Settlement Agreement, and the capitalized amount resulting from the application of the ICCA methodology outlined in Rule 25-6.0143, F.A.C.
6. Is the Crew Tracking Application, referred to in Section 8 of the Settlement Agreement, proprietary to FPL or is it commercially available? If the Application is proprietary, what are the estimated costs to develop and maintain the Application? If the Application is commercially available, what are the costs of using the Application.

Kenneth Rubin, Esq.
