Dear Clerk Florida PSC Clerk,

I understand that you will be setting energy savings goals for the state's largest utilities that will dictate the scale of efficiency programs we are offered for the next 10 years.

We all want to make our homes more efficient, comfortable and secure. Energy efficiency programs play a critical role for so many families in Florida. Efficiency helps lower bills for all customers through less fuel being burned and deferring costly future power plants. I heard that many of the state's largest utilities have proposed goals of zero or close to zero. We need the utility companies that we depend on to IMPROVE our energy efficiency, not just stand still.

That's why I'm asking you to please support goals that are in line with the energy savings captured by leading states, and that will spur investments in energy efficiency to as many customers as possible. Let's not leave savings on the table.

Thank you for your time,

Sincerely,
John Rausch
Bradenton, FL 34212
