Subject: Don't let monopoly utilities make it harder for customers to control our energy use; Docket Nos. 20190015 to 20190021

Dear Florida Public Service Commission,

Hello, I am an FPL customer and solar energy supporter. I do not want utilities to limit my right to determine where my electricity comes from. Utilities' recent requests to reduce energy efficiency standards is distressing. I strongly support FPL's plan to add more solar panels at the Parrish plant. I urge you to step up to promote solar energy in Florida!

Florida already trails states across the country and the Southeast in capturing energy savings for customers. Now, many of the state's largest utilities have proposed goals of zero or close to zero. We already pay some of the highest electric bills in the nation. Hard-working families will see their bills go even higher if the utilities get their way.

Please support goals that are in line with the energy savings captured by leading states, and that will spur investments in clean energy and efficiency.

Thank you for your consideration,

Sincerely,

Ms. Deb Konieczny
