Yes, all those documents associated with that Docket may be returned.

Thank you, Delores!

Good Morning Delores

In the Inventory of Confidential Documents by Division and Inventory of Documents in Dockets Closed reports produced last month, a few confidential documents were not included in the list for Docket 20170272. In the reports you checked off all confidential DNs be returned [DN 05631-2019] for Docket 20170272.

Could you confirm with staff that DNs 03595-2018, 04797-2018, and 00743-2019 can be returned as well? Thanks

Sincerely,

**Nickalus Holmes**
