Subject: RE: Stop utilities from making it harder to save money on bills; Docket Nos. 20190015 to 20190021

Good Afternoon, Joan Huck

We will be placing your comments below in consumer correspondence in Docket Numbers 20190015 to 20190021, and forwarding them to the Office of Consumer Assistance and Outreach.

Have a great day,

Public Service Commission

Ereecy McNeal Commission Deputy Clerk I

Subject: Stop utilities from making it harder to save money on bills; Docket Nos. 20190015 to 20190021

Dear Florida Public Service Commission,

Hi my name is Joan Huck and I live in Fort Lauderdale.

Fl. air conditioners run nearly all year in south Fl. Rates should be lower to be able to provide all necessities we need to survive. An electric bill of nearly \$200.00 makes no sense when you have all hurricane windows, insulation, double sheet rock on the walls, a family to feed, and you have done all you can to keep your bill low. I am the only one in the home during the day and it makes no sense to pay such a high bill.

I am writing to urge you to reject the request by Florida utilities to have a goal of zero (or nearly zero) on energy efficiency for the next ten years.

I am concerned that if the energy efficiency goals are abandoned, the utilities will stop providing the kinds of services that help people lower their power bills. People shouldn't have to choose between paying for food, medicine, or rent and being comfortable in their own homes.

Florida is ranked near the bottom of the nation in terms of energy efficiency — we should be increasing energy efficiency measures, not abandoning them. We know that increasing energy efficiency is one of the cheapest and easiest ways to fight the global warming that's causing neighborhood flooding and other serious problems

in Florida.

When this issue comes back before you, I ask you please to vote to strengthen our energy efficiency goals.

Regards,
Joan Huck

Fort Lauderdale, FL 33325 ■
