Good Afternoon, Karen Povlock

We will be placing your comments below in consumer correspondence in Docket Numbers 20190015 to 20190021, and forwarding them to the Office of Consumer Assistance and Outreach.

Have a great day,

Public Service Commission

Ereecy McNeal Commission Deputy Clerk I

Subject: Stop utilities from making it harder to save money on bills; Docket Nos. 20190015 to 20190021

Dear Florida Public Service Commission,

Hi my name is Karen Povlock and I live in Fort Myers.

Climate change will affect every place on Earth but Florida is especially vulnerable to sea rise. We need to address this right now. We are running out of time. One of the ways is to be more energy efficient so we use less. It's not rocket science.

I am writing to urge you to reject the request by Florida utilities to have a goal of zero (or nearly zero) on energy efficiency for the next ten years.

I am concerned that if the energy efficiency goals are abandoned, the utilities will stop providing the kinds of services that help people lower their power bills. People shouldn't have to choose between paying for food, medicine, or rent and being comfortable in their own homes.

Florida is ranked near the bottom of the nation in terms of energy efficiency — we should be increasing energy efficiency measures, not abandoning them. We know that increasing energy efficiency is one of the cheapest and easiest ways to fight the global warming that's causing neighborhood flooding and other serious problems

in Florida.

When this issue comes back before you, I ask you please to vote to strengthen our energy efficiency goals.

Regards,
Karen Povlock
