CUSTOMER COMMENTS

It has be brought to our attention that we will be having an increase in water usage of 307% and that there is unaccountable water being used that no one is paying for. This is outrageous! For many reasons why is it we have to pay for water that we haven't used and the financial hardship put on us ^{will} ~~be~~ ~~cause~~ be financially unable to pay. We are on a limited income and unable to pay this percentage!

We also understand that a Public Hearing was held on ~~Oct~~ 17/19 and most of Fawn Ridge members were unable to attend which is unfair to not be aware of this increase!!
